Flexi System

Foldable shelf system

SYSTEM 
EDSTRÖM

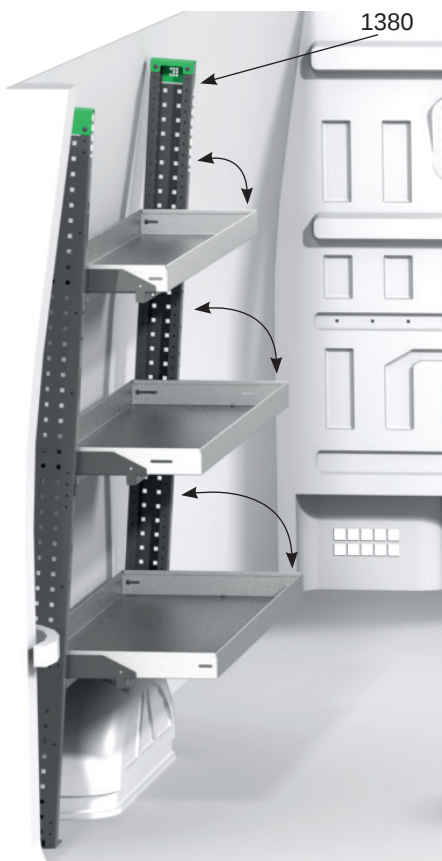

Small packages or volume goods

- Shelf frames can be mounted vertically or follow the body side. The floor bracket is adjustable in four different angles, 0, 4, 8 or 12°.
- Shelves can be mounted at corresponding angles so the shelf is in horizontal position.
- Two different locking hooks come with each shelf bracket, locking the shelf in 70 or 90°.

- Instead of locking hook you can use a gas damper.
- Payload 100 kg per shelf, uniformly distributed.
- Shelves in 300, 400 and 470 mm depth fit in our shelf brackets. Drop front shelves can also be used.
- Shelf brackets available for shelves with 784, 997, 1176, 1389 and 1568 mm length. Same brackets are used for the different depths

Flexi shelf frame
